The mission of Army Public Affairs (PA) is to fulfill the Armys obligation to keep the American people and the Army informed, and to help establish the conditions that lead to confidence in Americas Army and its readiness to conduct operations in peacetime, conflict and war. PA is a critical battlefield function in todays global information environment since every aspect of an Army operation is subject to instantaneous scrutiny. This field manual (FM) sets forth tactics, techniques and procedures (TTPs) for conducting PA operations in accordance with the doctrinal principles contained in FM 3-0 (100-5), Operations and FM 3-61 (46-1), Public Affairs Operations. Although this manual is primarily designed to be used by public affairs officers, noncommissioned officers and civilians, it presents TTPs that all leaders conducting operations in the information age should be familiar with. FM 3-61-1 (46-1-1) is applicable to units and individuals in both the active and reserve components. It serves as a foundation for integrating PA into Army doctrine, training, leader development, organization, materiel and soldier initiatives. In conjunction with the Army Training and Evaluation Program (ARTEP) and other training guidance, it should also be used to plan, integrate and execute individual and collective PA training in units throughout the Army. This incredible CD-ROM is packed with over 26,000 pages reproduced using Adobe Acrobat PDF software - allowing direct viewing on Windows and Macintosh

systems. Advanced search and indexing features are built into our reproduction, providing a complete full-text index. This enables the user to search all the files on the disk at one time for words or phrases using just one search command! The Acrobat cataloging technology adds enormous value and uncommon functionality to this impressive collection.
