

## Mary I: Queen of England (Tudor Times Insights (Profiles)) (Volume 14)

Mary I, daughter of Henry VIII and Katharine of Aragon, was the first woman crowned as sovereign in England. Her life veered between triumph and tragedy, as the doted on child became an outcast, deprived of her status and separated from her mother. She overcame opposition to claim her rightful inheritance, but memories of her short reign have been largely negative. This account draws on the latest scholarship to show a queen who was far more than the religious fanatic she has been portrayed as.
