

## The New Russia (Classic Reprint)

Excerpt from The New Russia Since this book was written great changes have taken place in Russia, and most of my predictions have been realized. As I anticipated, Count Witte has resigned. The coalition of his enemies and the antagonism of those who should have been his friends have made it impossible for him to carry farther the burden which he shouldered when he assumed the Premiership. He has been succeeded by a professed antagonist of popular freedom who has selected colleagues still less liberal than himself; with what seems the most extraordinary lack of foresight, he has entrusted the solution of the agrarian question to a Minister who, if he is consistent with the policy which he has always advocated, is bound to precipitate the agrarian crisis. The opening of the Duma has also justified my predictions. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books.
