

## The Cibecue Apache

Cultural anthropologist Keith H. Basso (1940-2013) was noted for his long-term research of the Western Apaches, specifically those from the modern community of Cibecue, Arizona, the site of his ethnographic and linguistic research for fifty-four years. One of his earliest works, *The Cibecue Apache*, has now been read by generations of students. It captures the true character of Apache culture not only because of its objective analyses and descriptions but also because of the authors belief in allowing the people to speak for themselves. Basso learned their language, became a trusted friend and intimate, and returned to the field often to gather data, participate, and observe. Basso's goal in this now-classic work is to describe Cibecue Apache perceptions, experiences, conflicts, and indecision. A primary aim is to depict portions of the Western Apache belief system, especially those dealing with the supernatural. Emphasis is also given to the girls puberty ceremony, its meaning and functions, as well as modern Apache economic and political life. Brief Table of Contents: Pronunciation Guide 1.
