

## The Mens Share?: Masculinities, Male Support and Womens Suffrage in Britain, 1890-1920

The opposition of men to womens suffrage is well-known. However, mens support for womens suffrage is a neglected subject. In the late nineteenth and early twentieth century, over one thousand men were prepared to join societies and actively work for womens suffrage, whilst many other men offered support. The Mens Share?, edited by Angela John and Claire Eustance, examines who these men were, how they organized themselves and how they put pressure on the government.
